FUNDamentals MyWebClock

Manager Console Application

SETUP GUIDE FOR Windows® AT KIDZONE

Introduction

The FUNDamentals MyWebClock application is a cloud-based employee timeclock system. The Manager Console component of this system is the part used by Site Coordinators or Supervisors to manage team members timeclock activity for their campuses/locations. This includes management activities such as:

- Add/Edit/Delete team member clock events (Clock In/Clock Out)
- Approve Weekly Hours
- Manage the Campus Override Code for early Clock In

This document outlines the steps for installing the Management Portal Launcher for Windows.

 Click this link: <u>Management Portal Launcher for Windows</u> (or type in the full link below)

https://kidzone-webclock-admin.azurewebsites.net/launchers/MyWebClockAdminInstall.htm

2. The following web page will load.

→ C 🎧 🖞 https://kidzone-webclock-admin.azurewebsites.net/launchers/MyWebClockAdminInstall.htm

Name: MyWebClock-Admin Launcher

Version: 1.0.0.4

Publisher: Visual Solutions

The following prerequisites are required:

- Windows Installer 3.1
- Microsoft .NET Framework 4 Client Profile (x86 and x64)

If these components are already installed, you can <u>launch</u> the application now. Otherwise, click the button below to install the prerequisites and run the application.

Click the Install button.

Visual Solutions Customer Support

3. When prompted, select 'Run' or 'Open' to start the installation. If you are not prompted, look in the browser Downloads folder for Setup.exe and choose 'Open File'.

4. The following screen will appear:

Application Install - Security Warning	×
Do you want to install this application?	د
Name: MyWebClock-Admin Launcher From (Hover over the string below to see the full domain): kidzone-webclock-admin.azurewebsites.net Publisher: Visual Solutions LLC	
Ī	istall <u>D</u> on't Install
While applications from the Internet can be useful, they can poten you do not trust the source, do not install this software. More Infor	tially harm your computer. If mation

Click the Install button.

5. You will likely receive (depending on your current security settings) the following screen.

6. If you see the screen above, you must click the More info link near the top to continue. This will enable another button as shown below.

	Windows protected your PC	×		
	Microsoft Defender SmartScreen prevented an unrecognized app from starting. Running this app might put your PC at risk.			
	App: WebClockKZAdminLauncher.exe Publisher: Unknown publisher			
	Run anyway Don't run	1		
7.				

Click the Run anyway button to continue. This will install the application and create a shortcut to the program on your desktop and start menu.

8. If prompted, select a Campus from the dropdown selection, then click Save and Close.
